WARRANTY: RIPLEY warrants its products against defective materials and workmanship for a period of two years from date of shipment from the RIPLEY factory provided the product is utilized in accordance with instructions and specified ratings.

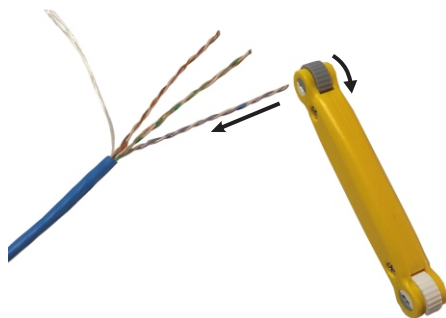

### Product Overview

The Miller MB14-7010 CAT/TP unwinding tool is designed to unwind and separate the twisted pairs in CAT-5, CAT-5e, CAT 6, CAT 7, and other similar sized cables for quick and easy termination.

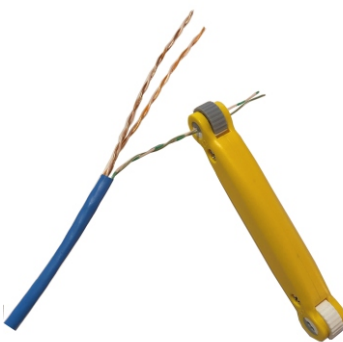

### Product Features

- Speeds up the twisted pair separation process
- Eliminates twisted pair damage during separation
- Reduces hand and finger fatigue
- Two sizing guides
- Compact size and easy to use

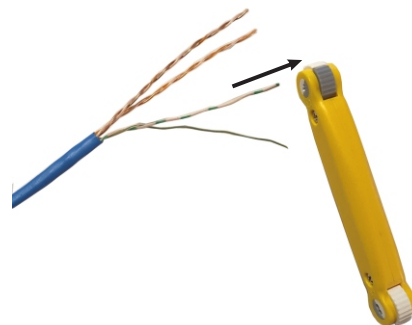

### Operating Instructions

1. Select the appropriate unwinding guide at the end of the tool. Use the smaller guide for CAT 5, 5E, and 6. And the larger guide for CAT 7. Use gentle thumb pressure to turn the guide roller clockwise and simultaneously feed the tool onto the twisted pair.

2. Continue turning the guide roller and allow the tool to self feed and unwind the twisted pair.

3. Press the guide roller and slide the tool off the unwound twisted pair to straighten them.
