

DEAR JETTING PARTNERS

Winter is now officially coming to an end, and on Sunday, March 1, spring is HERE. We celebrate the arrival of spring by introducing the new Jetting generation V0.

The new model is called V0 7.5, and once again Jetting sets the standard for optimal FTTH fiber blowing equipment – offering unique performance as the most powerful machine in its segment and featuring one of the fastest fiber securing systems available.

YES, we dare to do it differently.

Read more about this machine and make sure you are among the first to introduce and deliver this model to your customers.

NEW: V0 7.5 – COMPACT POWER, UPGRADED PERFORMANCE

We are proud to introduce the new **V0 7.5**.

Designed for professional installers who demand reliability and performance in a compact format, the V0 7.5 delivers improved power and efficiency while maintaining the lightweight and user-friendly platform that made the V0 series so popular.

See more details in the attached datasheet.

From March onwards, the V0 and V0 HD models will be discontinued.

VO 7.5 SPECIAL PRE-ORDER OFFER!

Contact your local Sales Manager to receive a special pre-order discount.
Start of delivery: End of March

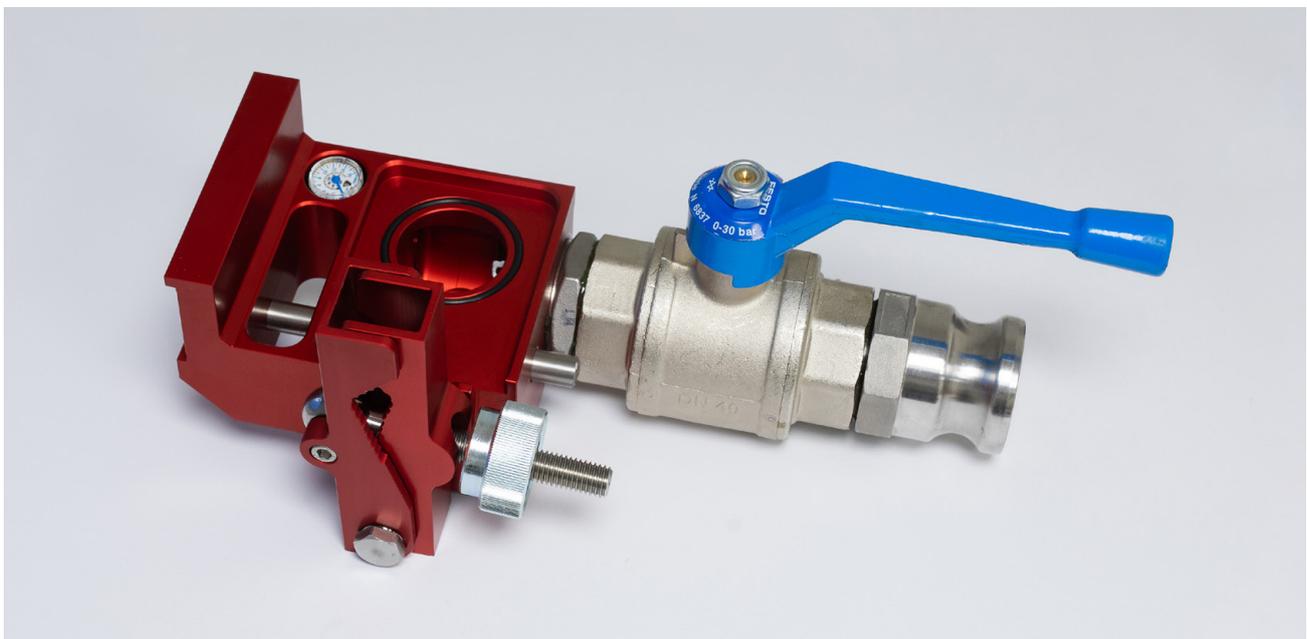

V4 GRIZZON – NOW WITH CAMLOCK OPTION FOR LARGER DUCTS

For installations using ducts larger than 50 mm, we recommend the Camlock connection with a 1.5" air inlet instead of the standard 1" claw connector. Available free of charge when ordered with a new machine.

This solution provides:

- Faster setup
- Secure and stable connection
- Improved airflow for larger duct dimensions
- Ideal for longer backbone installations

PRICE ADJUSTMENT – JETAIR COMPRESSOR

Please note that there will be a price adjustment on the JetAir 100270 compressor. For updated pricing, please contact your Sales Manager.

MEET US AT FIBERDAYS 2026

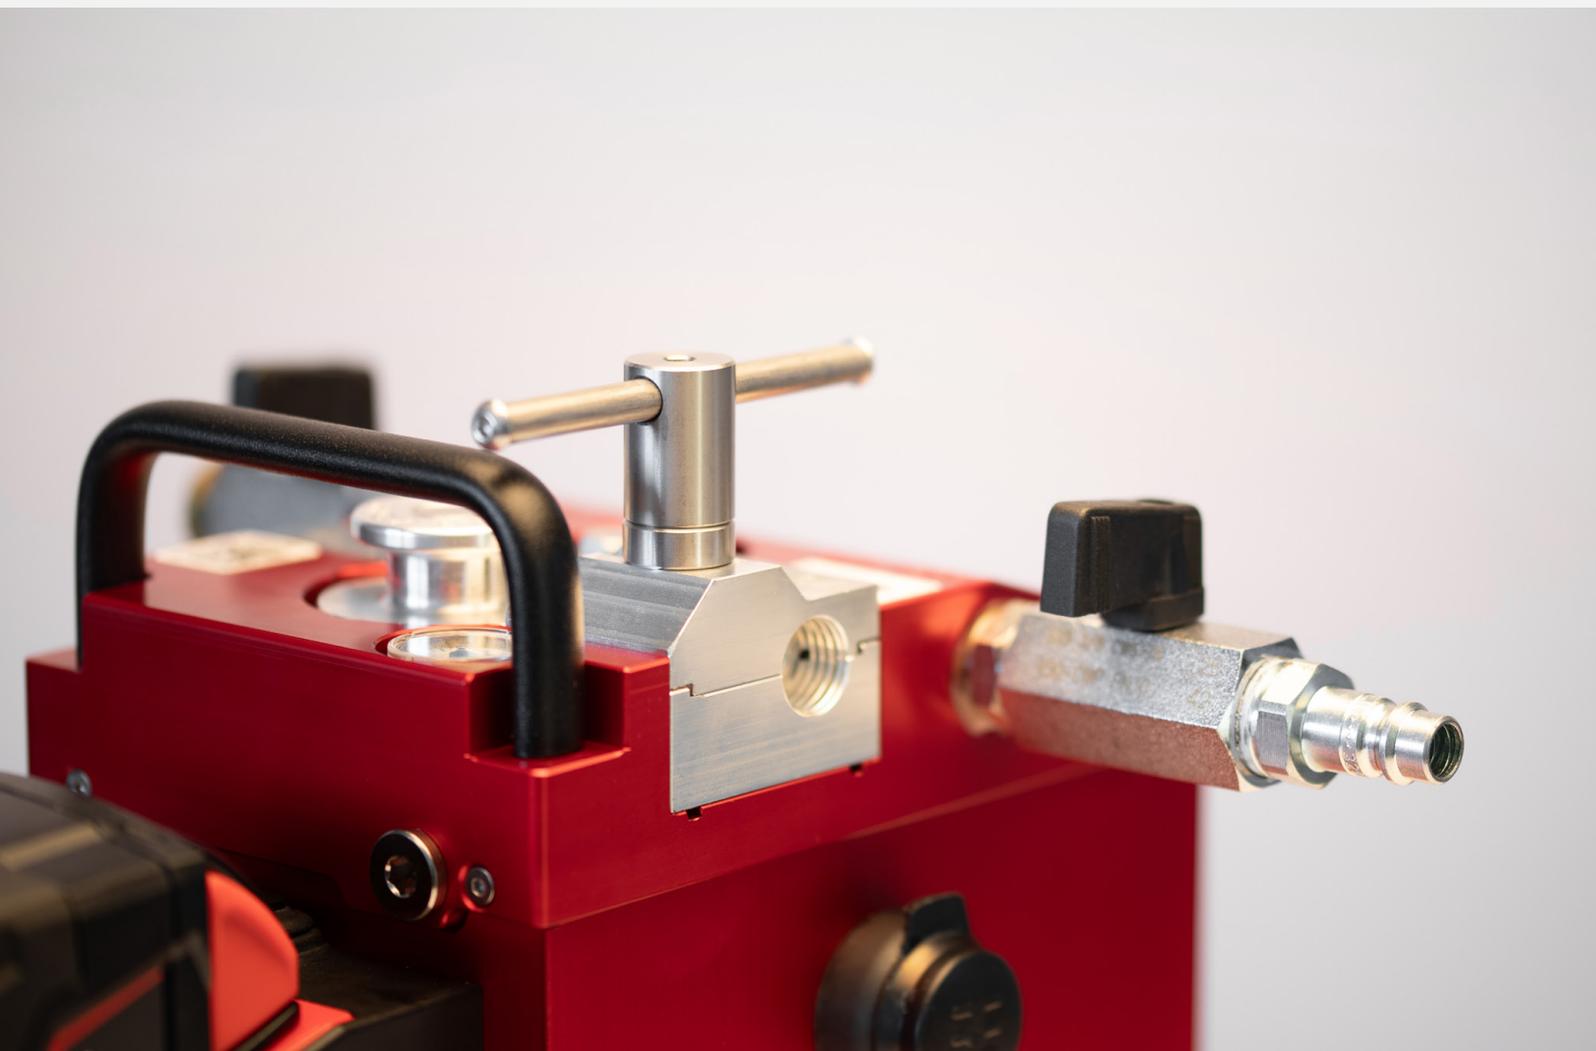

We are excited to exhibit at FiberDays 2026, the leading trade fair for digitalization, digital infrastructure and fiber-optic expansion, held this year in Frankfurt, Germany.

Venue: Messe Frankfurt, Ludwig-Erhard-Anlage 1, 60327 Frankfurt am Main, Germany

Dates: March 25–26, 2026

Stand: Hall 3.1, Stand 3.1 F39

Come and talk to our team about the new V0 7.5, V4 Grizzon high-performance installations and complete fiber installation solutions – let's discuss your next project.
