

[Announcement] Seiko Giken Polisher: Change of Dye Used for APC (Green) Holder Rings

Due to the discontinuation of the original Green Alumite dye, Seiko Giken will be switching to an alternative dye.

As a result, the color appearance of the product's ring portion will change as follows:

Current Color: Dark Green

New Color: Green

Since inventory levels vary across different holder models, this change will be

implemented as a "Running Change" (natural transition).

The change is expected to be applied to products shipped from April 2026 onwards.

Please note that this change only affects the appearance; there will be no difference in polishing performance.

Distributor in China:

Shenzhen Richen Industry Co., Ltd
